# Welcome to 3Shape Academy UK

Innovation is deeply rooted  
in our DNA. It drives our success.

3Shape invests many resources to build an environment filled with inspiration and freedom – driven by purpose and vision. We do our utmost to create the best learning environment for you.

Your 3Shape solution is a product that will continually develop. As the digital ecosystem changes it is imperative that 3Shape customers have access to the latest innovations and digital solutions as they develop.

Through the 3Shape Academy we want to bring the cutting edge closer to you. From refresher and tips and tricks courses that hone your skills, to introductions to advanced workflows and innovative design.

The 3Shape UK syllabus is designed with your growth in mind. It is our goal that you get the most out of your 3Shape solution.

# Testimonials

## Professional trainers

*"Training was excellent! Dale's knowledge of the technology is awesome. Thanks to him I'm using my TRIOS with great regularity and more importantly with outstanding results"*

Mervyn, London

## Putting knowledge into practice

*"Michal's in-depth knowledge of the software, along with his excellent communication skills have helped us to deliver predictability to our valuable customers"*

Luke, Watford

## World class standards

*"The team were very helpful and knowledgeable and were able to help streamline the workflow for many treatments we carry out. I can't wait to attend again to further enhance my skills"*

Anup, Braintree

## First-hand experience

*"The training was very interesting, and the made- to-measure approach was most helpful. 3Shape's hospitality was also priceless and I hope to come back to Reading again soon"*

Agnieszka, Warsaw

**Charlie Laity**

Training and Application  
Specialist, Clinical Solutions

**Victoria Rayner**

Training and Application  
Specialist, Lab Solutions

Learn from our 3Shape Training Specialists and discover tips and tricks and the best practices that will enhance your experience with 3Shape products and increase your confidence as a 3Shape user. Most of our courses take place in small groups of a maximum 12 participants at 3Shape UK, Reading.

# TRIOS Masterclass

## 1-day training

Become a true TRIOS Master with this comprehensive experience. This course will explain advanced TRIOS indications, such as scanning for dentures, and capturing centric relation bites. It also covers the fundamentals of how a TRIOS captures data, the difference between file types and a detailed look into the engagement apps for your scanner like never before.

### Dates

25 August 2022  
12 October 2022

### Target group

Existing 3Shape TRIOS users who have completed their onboarding journey

### Course price

£395

### Number of participants

Minimum 4 - Maximum 12

### Duration

1 day, 10:00-16:00

### Trainer

Charlie Laity,  
Senior Training & Application Specialist  
at 3Shape UK

### Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

### Upon completion of the course, you will be able to:

- Understand the full scope of a digital journey with 3Shape.
- Learn the latest advancements and updates in 3Shape's scanning technology.
- How to take shades with TRIOS, and tailor the environment for doing so.
- Utilise Patient Specific Motion for Dynamic Occlusion capture.
- Patient engagement with caries detection aid tool.
- Scan fully edentulous patients.
- Scan for RPDs.
- Learn the fundamentals of digital files, differences between STL, PLY and DCM.
- How to utilise 3Shape's Patient Engagement Applications.

# Patient Engagement with TRIOS

1-day training

Become a pro at engaging patients using the latest advancements in digital technology. This course will go through the specifics of utilising TRIOS features, and all 3 of 3Shape's TRIOS Engagement applications, and how you can use them to effectively communicate and engage patients in treatments

## Dates

25 October 2022

## Target group

Dentists, TCOs,  
Practice Managers

## Course price

£395

## Number of participants

Minimum 4 - Maximum 12

## Duration

1 day, 10:00-16:00

## Trainer

Charlie Laity,  
Senior Training & Application Specialist  
at 3Shape UK

## Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

## Upon completion of the course, you will be able to:

- Utilise TRIOS tools and enhanced colour adaptations to show patients their true dental situation.
- Use 3Shape Smile Design to simulate and plan realistic images of post-treatment results.
- Use TRIOS Treatment Simulator to simulate for Orthodontic treatments, such as aligners, fixed labial orthodontics and lingual orthodontics,
- Use Patient Monitoring to identify wear, attrition, decay, erosion and many more volumetric changes.
- What the ideal setup is for ideal patient engagement.

# Plan Implant Placement and Produce Surgical Guides

1-day training

Learn how labs and clinics can use Implant Studio to provide guided surgery for implant cases. This course will cover single unit, multiple unit and edentulous cases, and how to design a surgical guide for each. The day will include 3D printing of surgical guides using a SprintRay Pro 3D Printer

## Dates

7 September  
3 November 2022

## Target group

Implantologists,  
GP's placing Implants

## Course price

£395

## Number of participants

Minimum 4 - Maximum 12

## Duration

1 day, 10:00-16:00

## Trainer

Charlie Laity,  
Senior Training & Application Specialist  
at 3Shape UK

## Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

## Upon completion of the course, you will be able to:

- How to scan for Implants using TRIOS.
- Import scans using 3Shape Communicate.
- Create a simple single unit case with a surgical guide.
- How to plot the mandibular nerve.
- Plan for a multiple unit case.
- How to plan for a fully edentulous case.

# In-house Production of Crowns and Inlays

1-day training

Learn how to scan, design and produce crown and inlays in your own clinic with TRIOS Design Studio. You will learn about the digital workflow for TRIOS Design Studio. Through hands on exercises you will learn how to scan, design and print your own restorations in house. The day will include 3D printing of models/crowns using a SprintRay Pro 3D Printer.

## Dates

10 August 2022  
23 November 2022

## Target group

Implantologists,  
GP's placing Implants

## Course price

£395

## Number of participants

Minimum 4 - Maximum 12

## Duration

1 day, 10:00-16:00

## Trainer

Charlie Laity,  
Senior training & Application Specialist  
at 3Shape UK

## Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

## Upon completion of the course, you will be able to:

- Scan patients.
- Design your own restorations such as crowns, inlays and screw retained crowns.
- Print your temporary designs

[Book your place here](#)

# Introduction to Implant-Based Restorations with Dental System

1-day training

This course is dedicated to 3Shape users that have a basic knowledge in Dental System and want to start designing and producing implant-based Restorations.

## Dates

19 October 2022

## Target group

3Shape Dental System user with a minimum of 6 weeks design experience

## Course price

£395

## Number of participants

Minimum 4 - Maximum 12

## Duration

1 day, 10:00-16:00

## Trainer

Victoria Rayner,  
Training & Application Specialist  
at 3Shape UK

## Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

## Upon completion of the course, you will be able to:

- Gain an understanding of the implant workflow including importing Implant library's & Scan Bodies.
- Design Single Unit Implant Restorations including Customised Abutment, Screw Retained crown and Anatomical Abutments.
- Design Short Span Implant Bridge.
- Design an Implant bar.
- Generate implant model with separate soft tissue TRIOS.

# 3Shape Smile Design: Clinic & Lab Workflows

1-day training

A fully comprehensive digital workflow using TRIOS, Smile Design and Dental System.

---

## Dates

11 October 2022

## Target group

3Shape Dental System user with a minimum of 6 weeks design experience

## Course price

£395

## Number of participants

Minimum 4 - Maximum 12

## Duration

1 day, 10:00-16:00

## Trainer

Victoria Rayner and Charlie Laity,  
Senior Training & Application Specialists  
at 3Shape UK

## Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

## Upon completion of the course, you will be able to:

- Understand the concept of Smile Design (Diagnostics & Planning).
- Know how to use 3Shape Unite.
- Know how to create the order for a Smile Design.
- Scan and use photo requirement.
- Know how to use 3Shape Smile Design.
- Create a Diagnostic Model using RealView Engine in Dental System.
- 3D print the digital mockup, and post process.
- Understand clinical transfer methods.
- Understand methods and concepts for final restorations.

[Book your place here](#)

# Introduction to Digital Dentures and Removable Partial Dentures using Dental System

1-day training

Using Dental System, you will learn how to digitally design and produce dentures, RPDs and Try ins.

## Dates

17 November 22

## Target group

Lab Technicians

## Course price

£395

## Number of participants

Minimum 4 - Maximum 12

## Duration

1 day, 10:00-16:00

## Trainer

Victoria Rayner,  
Training & Application Specialist  
at 3Shape UK

## Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

## Upon completion of the course, you will be able to:

- Discover 3Shape's main Digital Denture workflows.
- Learn about scanning technique & Manufacturing options.
- Design Customized Tray for Edentulous Patients.
- Design Single Arch Denture.
- Design Complete upper and Lower Denture using Reference Denture workflow.
- Design RPD framework.

# Customised Classroom Training

1-day training

Rent an expert for the day, and you tell us what you want! One of our specialists will create a customised agenda for the day, based on whatever you would like to know. Note: this course is not CPD accredited due to its customised nature.

## Target group

Clinic/Lab/Ortho/Implant

## Course price

£1,500 per practice

## Number of participants

Minimum 1 - Maximum 12  
Must all be from the same company

## Duration

1 day, 10:00-16:00

## Trainer

Charlie Laity,  
Senior Training & Application Specialist  
at 3Shape UK

## Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

## Some examples of topics on offer:

- TRIOS Customised.
- TRIOS Engagement apps: Smile Design, Treatment Simulator, Patient Monitoring .
- Clear Aligner Studio.
- Splint Studio.
- TRIOS Design Studio for In-House Production of restorations.
- Implant Studio for In-House Production of Surgical Guides.

# 3Shape Academy Virtual Trainings

Customised Virtual Training  
TRIOS Tuesdays  
3Shape Online Learning Hub

# Customised Virtual Training

1-day training

A customised learning experience, where you tell us what you want to cover

---

## Dates

on-demand

## Target group

Clinic/Lab/Ortho/Implant

## Course price

£75

## Number of participants

Maximum 12

## Duration

1 hour

## Trainer

Charlie Laity,  
Senior Training & Application Specialist  
at 3Shape UK

## Upon completion of the course, you will be able to:

- Scan challenging cases with undercuts, multiple units and bonded attachments such as orthodontic brackets;
- Scan implant restorative cases;
- Scan edentulous cases with new validated workflow;
- Improve current scan time and ability;
- Gain an insight into future clinical workflows;
- Learn how to get the most out of Smile Design, Treatment Simulator and Patient Monitoring.

# Implant Planning & TRIOS Dentures with Darren Kelsey, CDT

1-day training

First part of the day will focus on pre-prosthetic implant planning from single to full arch using Studio surgical planning software for designing and manufacturing of surgical guides.

In the second half of the day, Darren will talk about his experience as a CDT, digitally scanning using a TRIOS Intraoral scanner and then designing and digitally manufacturing Dentures using 3Shape's Dental System design software.

Up your denture game to provide dentures in 2 clinical appointments – scan and fit digital dentures!

You are welcome to bring your own cases.

## Dates

11 August 2022 (Reading)  
13 October 2022 (Glasgow)

## Target group

Clinic/Lab

## Course price

£595

## Number of participants

Minimum 6 – Maximum 12

## Duration

1 day, 9.30 – 17:00

## Trainer

Darren Kelsey, CDT  
Assisted by Tracey Marsh and Victoria  
Rayner – 3Shape Training Specialists

## Location

Reading (11 August 2022)  
Glasgow (13 October 2022)

## Upon completion of the course, you will be able to:

- Plan your implant cases from single unit to full arch
- Design immediate crowns and custom healing abutments
- Learn scanning steps to deliver complete dentures in 2 appointments
- Learn analog impressions techniques using existing dentures

# Get Clear with Aligners with Dr Ian Hutchinson

1-day training

Learn how to produce effectively and efficiently 'in house clear aligners' using 3Shape Clear Aligner Studio to deliver appropriate tooth movement for the correction of the patient's malocclusion with Dr Ian Hutchinson

## Dates

28 October 2022

## Target group

Clinic

## Course price

£595

## Number of participants

Minimum 6 – Maximum 12

## Duration

1 day, 9.30 – 17:00

## Trainer

Dr Ian Hutchinson

## Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

## Upon completion of the course, you will be able to:

- Understand and prescribe appropriate tooth movement.
- Undertake 'realistic' tooth movement within the 3Shape software and stage the movements for successful management of the malocclusion
- Overcompensate various tooth movements, where appropriate, to manage patient's expectations on duration of treatment and number of required aligners
- An overview of 3D 'in house' printing, export 'set up' models and 3D print them.
- Select an appropriate thermoforming plastic to deliver the required movement at each stage of treatment.
- Differences and advantages of thermoforming.
- Simply and efficiently finish the aligners for delivery to the patient complying with all medical directives.

# Making the Most of Your Intraoral Scanner with Dr Ian Buckle

1-day training

Describe and demonstrate and how he uses digital dentistry in every aspect of his working day to assist in examination, treatment planning and treatment provision from simple to complex cases. He will discuss the advantages and disadvantages of digital dentistry and how to get involved in digital dentistry even if you don't have a scanner yet.

## Dates

1 December 2022

## Target group

Clinic

## Course price

£595

## Number of participants

Minimum 6 – Maximum 12

## Duration

1 day, 9.30 – 17:00

## Trainer

Dr Ian Buckle

## Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

## Upon completion of the course, you will be able to:

- Digital record taking including intraoral scans, bite records and virtual articulation.
- Patient engagement with 2D and 3D Smile Design including smile trial.
- How to use this information to perfect the Digital Diagnostic Prototypes (wax up).
- How to design and print splints and models.
- How to design in house restorations.
- Why digital dentistry makes communication with the dental technician so much better.

# TRIOS Tips & Tricks and Smile Design with Dr Doug Watt

1-day training

Learn about going digital with TRIOS intraoral scanner from the very knowledgeable, Dr Doug Watt in this hands-on training day. First part of the day will focus on scanning for various workflows.

In the afternoon, Doug will talk about one of the TRIOS engagement apps, Smile Design. He will share his experience and some cases too.

There will also be a practical element.

## Dates

18 November 2022

## Target group

Clinic

## Course price

£595

## Number of participants

Minimum 6 – Maximum 12

## Duration

1 day, 9.30 – 17:00

## Trainer

Dr Doug Watt

## Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

## Upon completion of the course, you will be able to:

- Overview of digital workflows
- Hands on scanning for:
  - Standard cases
  - Complex cases
  - Crowns
  - Implants
- Principle of Smile Design
- Smile Design Software and its uses in treatment planning
- Clinical cases
- Smile Design Practical

# Implant Studio and Design Studio in Practice with Dr Doug Watt

1-day training

Learn how to use Implant Studio software to provide guided surgery for implant cases with Dr Doug Watt. The afternoon will cover the restorative phase and planning of screw-retained crown using Design Studio software. The day will include 3D printing of restorations using a SprintRay Pro 3D Printer.

## Dates

30 September 2022

## Target group

Clinic

## Course price

£595

## Number of participants

Minimum 6 – Maximum 12

## Duration

1 day, 9.30 – 17:00

## Trainer

Dr Doug Watt

## Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

## Upon completion of the course, you will be able to:

- Implant workflow overview
- Case setup
- CBCT scans and alignment
- Nerve Outline
- Panoramic curve
- Planning of Implant positions
- Guide design pilot vs fully guided
- Practical case planning
- Restorative phase and planning of screw retained crown

# Splint Therapy: Which, When and Why? with Dr Ian Buckle

1-day training

In this hands on program Ian will describe and demonstrate the different types of splints available and when and how to use them. He will discuss which factors are important in deciding how to use these effectively in daily practice and give an overview of the examination and differential diagnosis needed to make a decision regarding the appropriate role of splint therapy for each problem. Each participant will have the opportunity to fabricate a simple diagnostic splint. Participants will be shown how to use information from the patient's history and examination to decide which splint is most appropriate and how to use a splint.

## Dates

23 September 2022

## Target group

Clinic

## Course price

£595

## Number of participants

Minimum 4 – Maximum 12

## Duration

1 day, 09:30 - 17:00

## Trainer

Dr Ian Buckle

## Location

3Shape UK  
100 Longwater Avenue  
Green Park, Reading, RG2 6GP

## Upon completion of the course, you will be able to:

- Understand the main types and designs of occlusal splints.
- Appreciate the appropriate use of each splint.
- Understand the common problems that can be treated with occlusal splint therapy.
- Learn how to design and fabricate midpoint and full coverage splints.
- Understand how to fit and adjust both, midpoint, and full coverage splints:
  - A splint will be constructed for each delegate which will be fitted and adjusted during the course (Provided scans or models are provided by the delegate when requested)
  - Each delegate will have the opportunity to try our 3Shape Splint Studio. Other softwares will be discussed
  - 3D printing will be demonstrated

Our new platform brings the worldleading dental companies, solutions and labs together. No more switching back and forth: manage all your cases with choice and ease. Get a taste of the workflows and Unite Store now!

## **Workflows made easier than ever**

An intuitive interface, simplified lab order form with built-in chat, accessible portfolio of patient imaging data and much more.

## **1000's of Unite Store apps**

Expand your offering with a vast selection of lab and pattern apps for routine, in-demands and specialist treatments, in one place – the Unite Store.

## **World-leading dental companies and labs**

This platform united world-leading dental companies and labs you know and trust, to simply make you stronger and your digital dentistry easier.

# Terms and Conditions

## Registration

Places are registered via online booking form [3Shape.com/en/academy-united-kingdom](https://3Shape.com/en/academy-united-kingdom)

## Eligibility

A dongle number must be provided to validate eligibility to attend.

## Confirmation

Places are only confirmed once payment is received. A confirmation will be sent via email.

## Invoicing and payment

The participation fee will be charged upon receipt of the registration and is payable by invoice. All prices are inclusive of VAT.

## ISO Compliance

As a medical device manufacturer, we must stay compliant with the ISO 13485:2016 regulations. Each training must be documented in our internal CRM. Therefore, valid contact details must be collected for each participant.

## Privacy Policy and GDPR

Full details of our Privacy Policy and GDPR guidelines can be found on our website [www.3Shape.com/privacy-policy](https://www.3Shape.com/privacy-policy) and [www.3Shape.com/gdpr](https://www.3Shape.com/gdpr)

## Cancellation

All cancellations must be made no later than 14 days prior to relevant course date to receive a full refund. In the unlikely event of the training being cancelled by 3Shape, the fee paid will be repaid in full. 3Shape is not responsible for expenses associated with accommodation or travel.

We reserve the right to cancel if minimum numbers are not achieved. You will be notified with at least 14 days of notice.

## Equipment

3Shape shall provide all the necessary equipment required for the training including a laptop and 3Shape software and hardware.

## Catering

Lunch and refreshments are included in the cost of training.

# About 3Shape

3Shape is changing dentistry together with dental professionals across the world by developing innovations that provide superior dental care for patients. We partner with industry leaders to give dental professionals open choices for their patient care as well as supporting professionals' continued education. 3Shape's solution portfolio includes the multiple award-winning 3Shape TRIOS® intraoral scanner and dental lab scanners, design services, and market-leading scanning and design software solutions for both dental practices and labs.

Our 1700 employees serve customers in over 100 countries from 3Shape offices around the world. 3Shape's products and innovations continue to challenge traditional methods, enabling dental professionals to treat more patients more effectively. [www.3shape.com](http://www.3shape.com)
